

# RICCARDO LUPOFINI

## TASK 1 - FEEDING FRENZY -

### • CAUSES OF FOOD SCARCITY

→ "HUMAN PROVOKED" causes:

- Economic Disequilibrium due to ↑ Food Price
- Economic Inefficiency: Food Waste and unequal Distribution
- Speculation by Private Companies

→ "NATURE-RELATED" causes:

~~Climate change and global warming~~

- Climate change and global warming
- Ecological Limits

~~HOW CAN WE FEED A POPULATION THAT WILL GROW TO 9 BILLIONS BY 2050???~~

HOW CAN WE FEED A POPULATION THAT WILL GROW TO 9 BILLIONS BY 2050???

### • POSSIBLE SOLUTIONS

- Increase Food Production, using suitable unexploited land available
- Limit inefficiency → No waste and ~~proper~~ appropriate distribution
- INTERNATIONAL TRADE
- GRANT ACCESS TO POOR PEOPLE ACCESS TO FOOD → Being Justice
- Better use of resources (i.e. Regenerative Agriculture)
- REGULATE LAND-GRABBING, AGGRESSIVE FOREIGN INVESTMENT AND SPECULATION

- HUMAN SOLUTION FOR HUMAN PROVOKED PROBLEM =

Clean & well organised.
